

Corporate and Sustaining Members of the Aerospace Medical Association

Now in Our 93rd Year!

The financial resources of individual members alone cannot sustain the Association's pursuit of its broad international goals and objectives. Our 93-year history is documented by innumerable medical contributions toward flying health and safety that have become daily expectations by the world's entire flying population—commercial, military, and private aviation. Support from private and industrial sources is essential. AsMA has implemented a tiered Corporate Membership structure to better serve our corporate members. Those tiers are shown below for the following organizations, who share the Association's objectives or have benefited from its past or current activities, and have affirmed their support of the Association through Corporate Membership. As always, AsMA deeply appreciates your membership, sponsorship, and support.

For information on becoming a Corporate Member, please check out our website:

<https://www.asma.org/for-corporations>, or contact our Membership Department at 703-739-2240, x107.
