

Keeping AsMA Scholarships and Awards in Mind

Susan Northrup, M.D., M.P.H., FAsMA

Our Scientific Meeting is almost here! I hope you enjoy reviewing the abstracts as much as I did. Every year, the program gets more robust and the science more thought provoking. Huge kudos to the Scientific Program Committee and the home office staff for all the hard work and dedication it takes to get this far!

It is also that time of year for renewing memberships and awarding scholarships. AsMA had a bumper crop of applications for our four scholarships—including 13 for just one of them. Please remember as you speak with prospective members and contributors that there are scholarships to offset travel and education expenses for students, residents, and members new in the career field. The applications are on our website. In general, applicants must be members of AsMA, but there are student and

resident membership levels as well as some reduced pricing packages for certain countries based on need. Let's see if we can get more deserving applicants next year!

If you haven't already done it, I'd book your travel and hotel soon! Our room block is filling up. There are also lots of fun things to do in the area if you come in early or stay a couple of extra days.

I can't wait to see everyone in May!

Late Breaking Room Changes for AsMA's 93rd Annual Meeting

Changes to the Napoleon Ballroom scientific session rooms were made in an effort to maximize seating space. The table below explains the changes.

Napoleon Session Rooms as Listed in April AMHP Journal

Napoleon Ballroom C1-D1
Napoleon Ballroom C2-D2
Napoleon Ballroom C3-D3

Napoleon Session Rooms as Listed in the Meeting App & Meeting Addendum

Napoleon Ballroom C1-C2
Napoleon Ballroom D1-D2
Napoleon Ballroom C3

Napoleon Ballroom A1-B3 remains the same.

In addition, the workshops were originally listed as being in the Napoleon Ballrooms as well, but are now in Rhythms Ballroom as below:

The Aerospace Medicine Faculty Development Workshop is now in Rhythms Ballroom III.

The Altitude Decompression Sickness — Pathophysiology, Diagnosis, Treatment, and Mitigation workshop is now in Rhythms Ballroom I.

The Establishing Peer Support Programs Across All Aviation Segments workshop is now in Rhythms Ballroom II.
